Weekly Training Net

Use this script for training. For an emergency, use the script on page 3.

Clear the frequency 10 minutes before the top of the hour.

Clear	This is [<u>your call</u>]. I will begin the Southwest Harris County Amateur Radio Emergency Service Net at the top of the hour. A clear frequency will be appreciated. We welcome all visitors to check in.							
	Calling the Southwest Harris County Amateur Radio Emergency Service Net. This is [<i>your call</i>], net control station. We meet every Wednesday at 8PM for training, and tonight we are using the Megahertz repeater with a PL tone of If you don't have the PL tone entered, then transmit simplex on the repeater output frequency. The backup repeater is Megahertz with a PL tone of

Backup	Is the backup net control and training station on frequency, over? <acknowledge and="" backup="" her="" him="" station="" thank="" the="" training=""></acknowledge>							
	Thank you, [<u>training station</u>].							
ion		This is a directed net. Stations may not call one another without going through net control first. The net is open to any licensed amateur. For digital check-ins,						
Direction	ple	please send a Winlink message to WD8RZA, K5OB, and WB5HJV. CC your own email address to confirm it was sent.						

Check In	We will first take check-ins from ARES members. Please let me know if you're checking in-and-out, or if you have relays or announcements for the net. I will call for your information after all check-ins are complete. Also, if you are a National Traffic System Liaison Station, please notify net control when checking in. You may pass your NTS traffic after the net concludes. Please check-in with your callsign using phonetics, and give your name, over. For each call, read-back "I acknowledge">< If there are many check-ins, then ask for callsigns in groups by the first letter of the callsign suffix. For example, ask for calls with suffixes beginning with A-L first, then M-Z.>

	<after concludes="" training=""></after>					
	This is [<u>your call</u>]. Thank you, [<u>training station</u>]. Are there any comments on tonight's training, over?					
	Are there any late check-ins for the net, over?					
Late	<for "i="" acknowledge"="" call,="" each="" read-back=""></for>					
Conclusion	Is there any further business for the net, over?					
	The District 14 Southwest Unit ARES net meets every Wednesday at 8PM. For more information about ARES, or to join ARES, go to HarrisCountyARES.org. You can also access a list of upcoming public service events, other local nets, and extensive training resources on this same site.					
	Thanks to all who joined the net, and thanks to the repeater trustee, <u>[see table</u> above for name], for allowing us to use this repeater.					
	This is [<u>your call]</u> out.					

SW ARES Net Procedures-

The backup and training station will (1) update ARES Connect and (2) complete the **Net Report** and send it to: Russell Richter, SW EC, at WP2AHG at gmail dot com and Wayne Johnson, SW AEC, at K5OB@arrl.net.

Please include:

1. Start and end times, and 2.

Count of check-ins:

- Once for voice
- Once for digital, please note bands: VHF, UHF, HF, Telnet, Mesh (count as <u>one</u> even if multiple bands are used)
- Relays (someone cannot both be a "voice" and a "relay")

Emergency Net Procedure

To be used only for authorized emergency activation of the net.

Calling the South West Harris County Amateur Radio Emergency Service Net Calling the South West Harris County Amateur Radio Emergency Service Net This is <your call>_____, net control station for this net.

This net is being activated at the direction of the South West Harris County ARES (Duty Officer, Officer In Charge (OIC), Emergency Coordinator, Assistant Emergency Coordinator):

- due to an emergency
- due to a potential emergency
- as a drill

• as an exercise and with the permission of the (fill-in)_____ (club or group) and the repeater trustee.

This repeater requires a sub-audible tone of (fill-in)_____Hertz for access. If your transmitter does not have this tone, transmit simplex on the repeater output frequency.

This is a directed net, address all transmissions to Net Control by giving your call sign only, then wait for instructions from Net Control.

Any station with emergency or priority traffic may break in at any time by giving their call sign and stating, "emergency traffic," or "priority traffic," as appropriate.

Emergency traffic is defined as any immediate threat to life or property. Priority traffic is any official message to or from any public service organization.

- Briefly describe the emergency situation, drill or exercise.
- Call for check-ins, if appropriate.
- Prepare a resource list, if appropriate.
- Announce back up frequencies and net control stations.

SW ARES Net Procedures

When checking in to the net, give your call sign only using phonetics. All stations are requested to remain on frequency until the net closes. If it's necessary to leave the net, notify Net Control.

I will now take check-ins from stations with call sign suffixes beginning: A alpha through L lima

- acknowledge the call signs you hear before asking for more stations,
- continue when no one answers

M mike through Z zulu

acknowledge the call signs you hear before asking for more stations,
continue when no one answers

Notes:

- 1. Call each station and request the information on the Resource List form
- 2. Repeat the above (including repeater frequency and sub-audible tone) as necessary, and until directed otherwise by the OIC or EC.
- 3. Maintain a log of all check-ins and traffic on the net.
- 4. This information will be reported at the end of the exercise.
